Alan Vourc'h

FP&A Manager | Finance & Data

Montréal, QC | alan.vourch@gmail.com | +1 438-476-4780 | LinkedIn | Open work permit

PROFILE

FP&A Manager with 10+ years in banking, corporate finance and consulting. I develop financial models and planning processes to support forecasting and business decisions.

PROFESSIONAL EXPERIENCE

Independent FP&A Consultant
Jun 2023 - Mar 2026

Paris | Selected assignments

- Bank (6 months): redesigned budgeting and forecasting; implemented BI tools to improve data quality.
- Airport group (6 months): modeled P&L, analyzed BU KPIs, automated reporting and reworked internal controls.
- SaaS scale-up (8 months): partnered with business, Finance and Accounting to restructure data flows, automate workflows and deliver a live executive dashboard.

Head of FP&A
Nov 2020 - Jun 2023

Auditoire (TBWA Group) | Paris | Events agency | €100M revenue, 150 employees

- Established the FP&A function; recruited and managed 3 analysts across P&L, budgets and forecasts.
- Designed a BU P&L model that informed CEO and CFO decisions on team structure and hiring.
- Developed and maintained a live payroll database, improving forecast accuracy by 25%.
- Deployed Power BI dashboards to track revenue and margins, with tailored views for Finance, business managers and leadership.
- Reviewed and signed off monthly P&L and balance sheet packs with the Head of Accounting.
- Redesigned Finance and Accounting controls with KPMG to meet SOX requirements, cutting monthly control work by 30%.

Financial Planning Analyst
Apr 2015 - Jan 2019

Société Générale CIB | Paris | Corporate & Investment Banking

- Consolidated €7B in annual costs across 12 BUs worldwide; analyzed budget variances and reported monthly to FP&A leadership.
- Owned budgets, forecasts and allocation keys for €400M in annual taxes, challenging amounts with the Tax Department.
- Developed a three-year, driver-based cost forecast; backtested against historical budgets with a 1.5% average error and presented results to the CFO and COO.
- Represented Cost Management in the selection and rollout of IBM Planning Analytics (EPM).
