SUMMARY

FP&A Manager and former Head of FP&A with more than 10 years of experience across multinational and mid-sized organizations. Led planning, budgeting, forecasting, P&L management and executive decision support for a €100M business while hiring and managing three analysts. Combines financial modeling with Excel/VBA automation, Power BI, SQL and Python to improve forecasts, management reporting and business decisions.

PROFESSIONAL EXPERIENCE

Independent FP&A Consultant

Jun 2023 - Present

Independent | Paris, then Montréal since March 2026

- Supported scale-ups and established companies with planning, management reporting and finance operating models at FP&A Manager and Head of FP&A scope
- Reworked budgets and forecasts to clarify ownership between Finance and operational teams
- Built P&L, headcount, cost-to-serve, cash and scenario models to support management planning and decisions

Head of FP&A

Nov 2020 - Jun 2023

Auditoire (TBWA Group) | Paris

- Structured the FP&A function for a €100M revenue, 150-person business; hired and managed three analysts across P&L, payroll, budgeting and forecasting
- Organized monthly reviews with business and support function leaders to analyze budget variances and update forecasts
- Automated the monthly FP&A reporting cycle in VBA, shortening it by 40%
- Developed and maintained a live payroll database that improved forecast accuracy by 25%; reviewed the hiring plan monthly with HR and the CEO
- Modeled P&L by business unit, including payroll and cost allocations, to support organization and hiring decisions; the model was reused by the China and Middle East entities
- Deployed Power BI dashboards with views tailored to Finance, executives and business managers

Financial Planning Analyst

Jan 2020 - Mar 2020

Aéroports de la Côte d'Azur | Nice | Contract

- Supported the FP&A team during the annual close: P&L analysis for airport retail and restaurant activities, concession fees, KPIs, and management/shareholder reporting
- Automated recurring reports in VBA to reduce manual work and improve data reliability

Financial Planning Analyst

Apr 2015 - Jan 2019

Société Générale | Paris | Corporate & Investment Banking

- Consolidated €7B in annual costs across 12 business units worldwide, working with controllers across the Americas, Asia and Europe
- Owned the budget, forecast and allocation keys for €400M in annual taxes, challenging assumptions with the Tax Department
- Developed a multi-variable regression forecast based on headcount, professional fees, FX and taxes, achieving a 1.5% average error and presenting the results to the CFO and COO
- Redesigned the tax dashboard after surveying its 50+ users, lifting adoption from 33% to 80%
- Represented the Cost Management team in the selection and rollout of IBM Planning Analytics for budgeting and forecasting

Financial Planning Analyst

Sep 2014 - Mar 2015

Newedge | Paris | Prime Broker

- Monitored daily group P&L, investigated variances and reported directly to the CFO
- Supported financial consolidation during Société Générale's acquisition of Newedge, tracking integration costs and merger savings
